

My bilingual experience

During this four school years I have learnt, enjoyed, and discovered many, many things in the bilingual section.

In 2016, my favourite activity was the elaboration of recipes. I remember very well that day, each one of us made a recipe that we liked, and at the bilingual period our parents or relatives brought us the food. I made squid sandwiches. All the food was delicious! It wouldn't be the last time that we would organize a snack, rather it became a tradition.

The Christmas project was my favourite schoolwork in 2017. We made some 'posters' in a cardboard about the meaning of Christmas for us. When we finished the posters we took them to the high school, and the teachers exhibited them around the corridors.

I would never forget the exchange to Germany in 2018, it was the best activity that we did that year. We practiced English, we visited nice places

and beautiful monuments, but the most important thing was that we made new friends. And many of us still have contact with them, they were amazing, I hope one day I can return to Grimma.

Fortunately, our trip to Malta this course was before all the pandemic happened. It was unforgettable. We had many adventures, we lived amazing experiences, we laughed a lot, and we had a great time. Of course we also practiced English.

For me these years would be something not to forget, being in the bilingual section has given to me many opportunities, and memories that I would remember, maybe, all my life. I have improved my English a lot. But without Pastora and my classmates this wouldn't have been possible, all together we have been like a 'family'. I recommend this program to everybody, they would enjoy and learn for sure.
