Amanita baccata (Fr.) Gillet (= *Amanita boudieri*)

Algunas setas venenosas

Amanita phalloides

Amanita muscaria

Boletus satanas

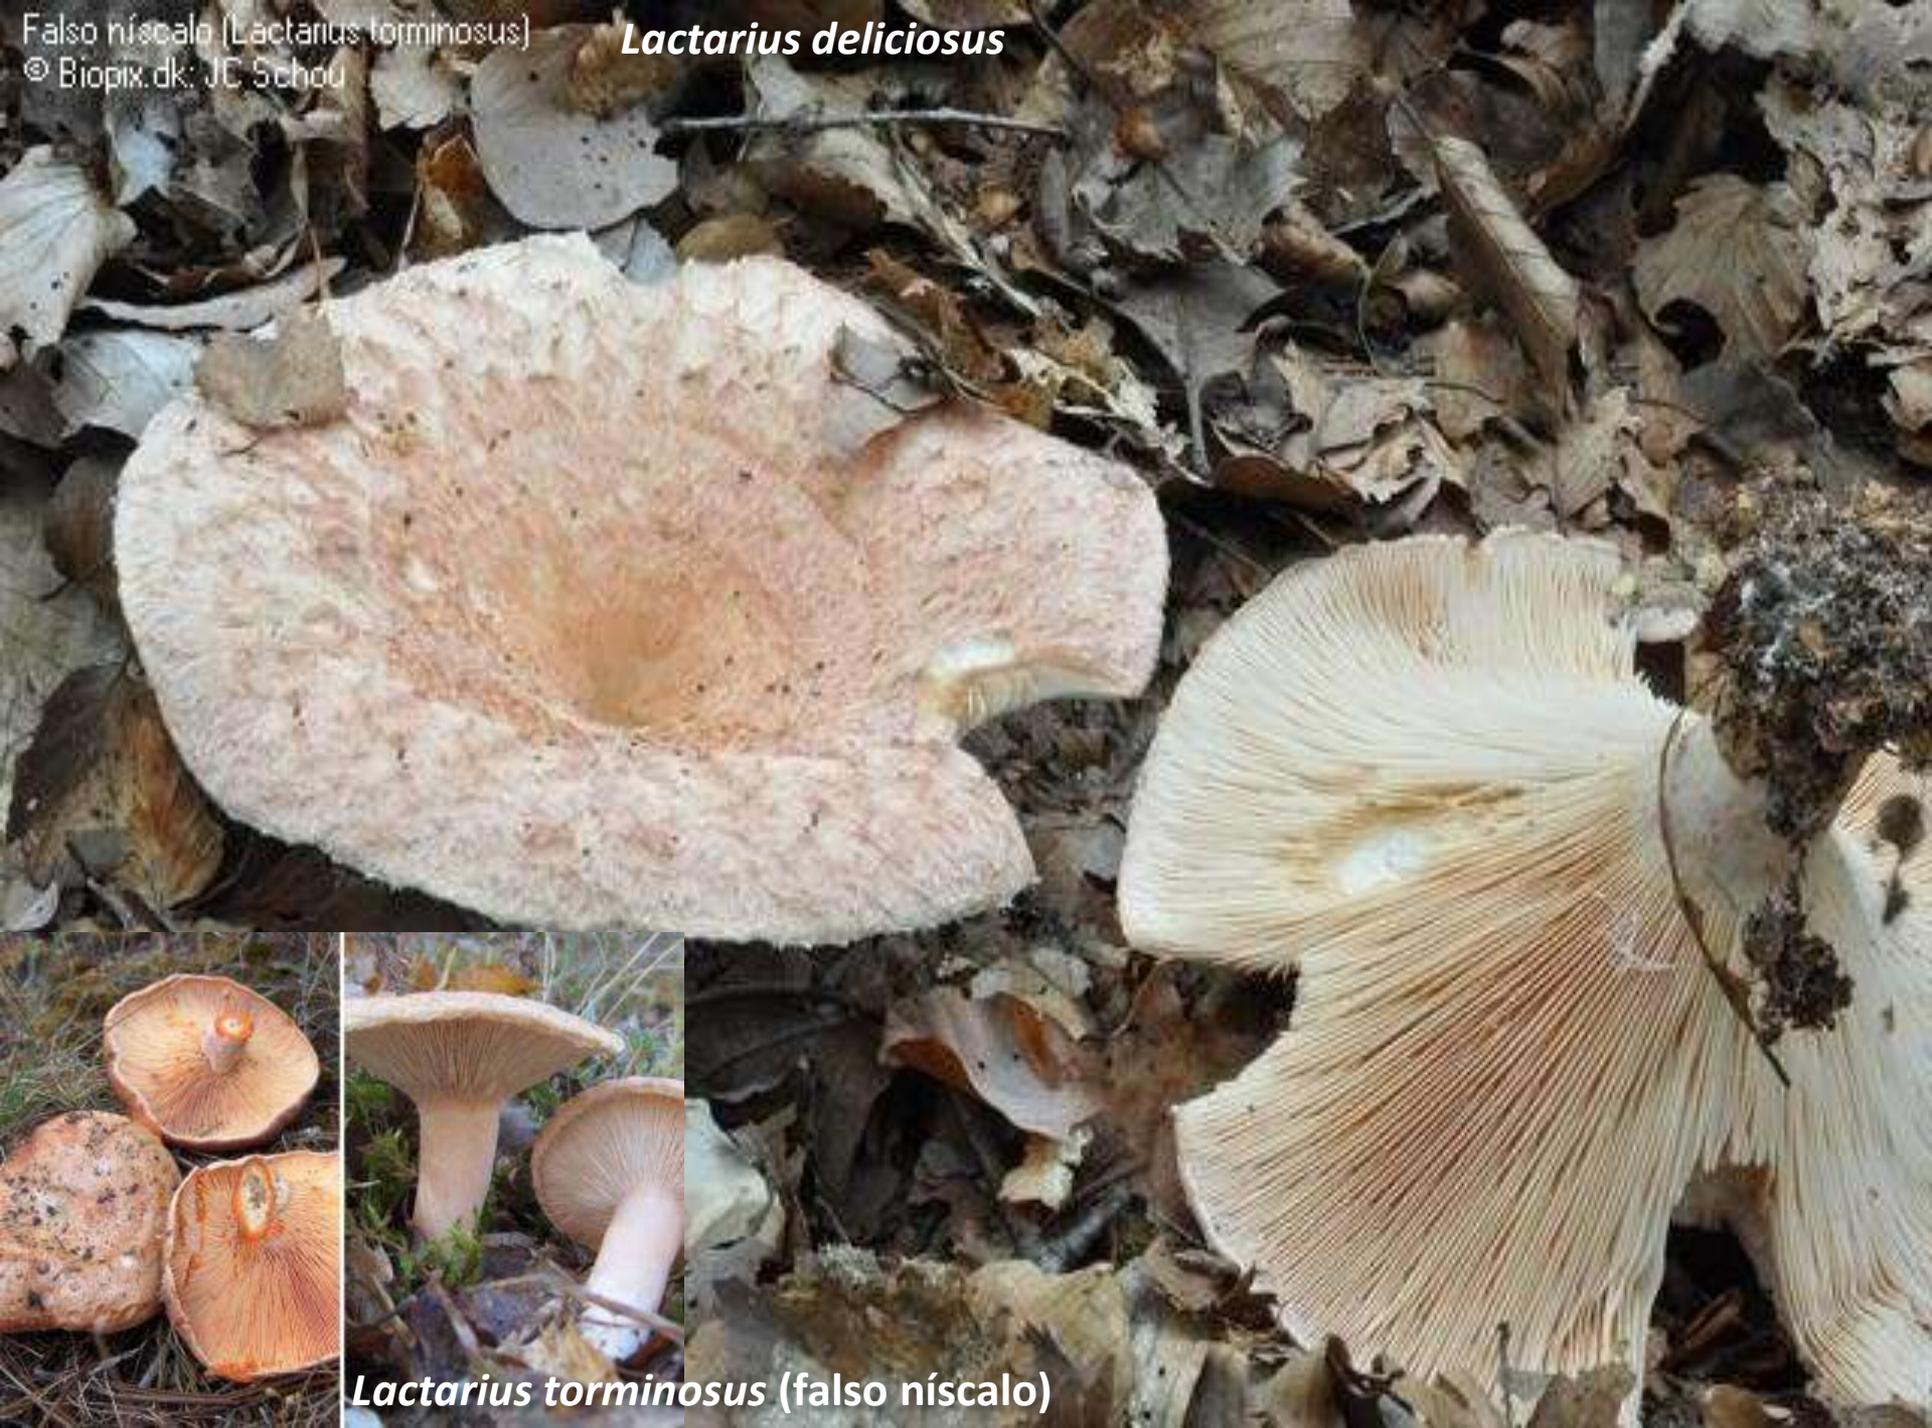

Lactarius torminosus (falso níscalo)

Falso níscalo (*Lactarius torminosus*)
© Biopix.dk; JC Schou

Lactarius deliciosus

Lactarius torminosus (falso níscalo)

Cortinarius orellanus

Russula emetica var. *longipes*

G. Peyronnet

Lepiota helveola

A photograph of two mushrooms in a grassy field with autumn trees in the background. The text "Setas alucinógenas" is overlaid in the center. The mushrooms are light-colored with gills. The background shows trees with yellow and orange leaves under a clear blue sky. The foreground is filled with green grass and brown autumn leaves.

Setas alucinógenas
